

Hello! My name is Vicki Wyant and I am the new Family and Volunteer Services Coordinator. It is my responsibility to ensure that families are getting the support they need while their loved one is a patient in our hospital. Several of my duties are; helping families obtain information, resources, education and services; facilitating open communication between families and staff; helping to resolve any problems or complaints; offering family support groups; and ensuring our hospital is as welcoming to families as possible. It is my pleasure to make sure that your questions are answered and that you receive any necessary assistance.

Thank You, Vicki
